

Name of the workshop:

ISEE Workshop on Ionospheric Plasma Bubble Seeding and Development

To be held at:

Room 409, Research Institute Building II

Institute for Space-Earth Environmental Research (ISEE), Nagoya University, Nagoya, Japan

When:

From 29 November to 02 December, 2016 (4 days of extension)

Objectives:

The workshop has the objective to organize in depth discussion by key world scientists on the topic of ionospheric plasma bubbles (IPB), i. e., seeding, development and social impacts on space-based high technology, and to review what we know today and we do not know, and what we should seek to know for further progress in the field.

Participants:

Around 18 scientists from USA, UK, India, China, Brazil, Australia and Japan

Organizers:

Dr. H. Takahashi (Convener) (Brazil)

Dr. M. A. Abdu (Co-convener) (Brazil)

Dr. Y. Otsuka (ISEE local organizer)

Prof. K. Shiokawa (ISEE local organizer)

Name of Participant (in alphabetical order):

N. Balan (UK),

Brett Carter (Anstralia),

Chao-Song Huang (USA),

Mamoru Ishii (Japan),

Guozhu Li (China),

S. Tulasi Ram (India),

Fabiano S. Rodrigues (USA)

Akinori Saito (Japan),

Hiroyuki Shinagawa (Japan),

Takuya Tsugawa (Japan),

Roland T. Tsunoda (USA),

Mamoru Yamamoto (Japan),

Tatsuhiko Yokoyama (Japan),

Kornyanat Watthanasangmechai (Japan).
