

Job opportunity in the Institute for Space-Earth Environmental Research (ISEE), Nagoya University (ISEE job opportunity No. 11 FY2021)

5. Job title/quantity

Designated Assistant Professor/One position

6. Field and Mission

Center for Orbital and Suborbital Observations (COSO), Institute for Space-Earth Environmental Research, Nagoya University to formulate and implement new observation plans, especially using flying objects such as airplanes, balloons, observation rockets, and satellites, and to promote technologies necessary to carry out these plans. “Promotion of Climate and Earth System Science Research by aircraft observation” which proposed by the Meteorological Society of Japan has been adopted as a priority issue in the Master Plan 2020 of the Science Council of Japan. This plan proposes the exclusive use of observation aircraft to continue continuous observation for about next 10 years, and COSO is positioned as core role of the aircraft observations. For this reason, COSO has started up Aircraft Observation Promotion Office in FY2021 to promote aircraft observation and revitalize the community. ISEE seeks a Designated Assistant Professor who will conduct research on observation analysis of the global environment, mainly using aircraft. In particular, we seek researchers who are motivated by aircraft observation, and who will conduct research on clouds, precipitation, and atmospheric components using numerical models, OR researchers who will conduct research in cooperation with the Meteorology and Atmospheric Research Division and the Terrestrial and Marine Ecosystem Research Division. We seek candidates who will enhance and lead future observation plans, and wide spread the importance and significance of flying object observation to the research community through research meetings and workshops. We are looking for a person who is willing to lead and promote the creation of research results in this field in cooperation with researchers nationwide.

3. Starting Date: April 1, 2022, or later, as early as possible

4. Term: up to March 31, 2023. (Possibly extend up to 31st March 2025)

5. Eligibility: Ph.D. as of April 1, 2022

6. Application Materials

- (1) Curriculum vitae,
- (2) Publication and research activity list,
- (3) Summary of research achievements (Papers, Presentations in international conference, invited lectures, and external funding received)
- (4) Research Plan (up to four pages, description of how you plan to contribute to the research work has to be mentioned)
- (5) Possible start date
- (6) Two recommendation letters, or names and contact information of two people who can provide opinions about the person

7. Application dead line: 7 (Mon), Mar., 2022, 8:00 JST

8. Submission: Applicants are required to make one PDF file (up to 10MB) that includes all documents and send it by email to the following address with the subject “Application for ISEE job opportunity No. 11 FY2021.”

inst-recruit (at) adm.nagoya-u.ac.jp ※ Please to replace the (at) with @

(A receipt confirmation will be sent by email within 3 business days after the submission. If you do not receive the receipt confirmation email by then, please contact the address in “9. Contact: 1) Regarding documents to be submitted.”)

9. Contact:

1) Regarding documents to be submitted
